OBJECTIVES

Knowing the right technologies to use for a specific project goes a long way to create the best system for a specific problem. I pride myself in knowing and learning about bleeding edge technologies while using solid and tested frameworks to solve real-world problems that have an impact on the daily life of regular people.

EXPERIENCE

WEB DEVELOPER
Xlr8 Ventures Inc.

AWS Infrastructure
AWS Lambda System
Central Event Manager for Postnord

Create Unit Tests
Retro Planning
Systems Development

TEAM LEADER
Flat X Realty Services | MARCH 2018 - CURRENT 2019

SEO Optimization
Code Optimization
Code Review
GraphQL Implemetation
Microservices Deployment
Research Technology

Features Planning
Design Planning
Allocation of Tasks
Project Planning
Database Design
Scrum Leader

SENIOR PROGRAMMER
Helpmate Incorporated | MARCH 2015 - MARCH 2018

Company Website
IT Support
DB Admin
Network Security
System Security
Accounting System Maintenance
Server Virtualization

Rack Server Deployment
Raid Z2 NAS Server Deployment
Water System
Network Wiring
Android Meter Reader Maintenance
Accounting System ERP Planning
Biometrics Software Deployment

JUNIOR PROGRAMMER
Azeus | JUNE 2014 - NOVEMBER 2014

Apply Software Engineering
Resource Sharing System
Oracle Database Management

Create JSP Pages
Study Proprietary Java Technology

MAJOR PROJECTS

POSTNORD CENTRAL EVENT MANAGER
This system receives events from multiple external systems that is not handled by the company. Those events are then compiled and stored to output a cohesive history of the delivery of a parcel.
Major Technologies: **Spring Boot, Java, DynamoDb, Serverless, CloudFormation, CloudWatch, Kibana, Kubernetes**

FLAT X REALTY WEBSITE
This system aims to have a free listing site for real estate with premium features for property management. This is an ongoing project where new features are added monthly based on user reviews and new ideas by management.
Major Technologies: **Spring Boot, Kotlin, GraphQL, Microservices, Angular, GCP, Kubernetes, PostGIS, Elasticsearch, Algolia**

ODOO HELPMATE WATER SYSTEM
This system replaces the desktop based water system with an online based water system that links to different ERP technologies for seamless processing of account management, billing, employee management, reporting, accounting, and most other concerns.
Major Technologies: **Python, XML RPC, Odoo, PostgreSQL, Android, Java**

CEBU CCTV WEBSITE
Update of Cebu CCTV ____ initial wordpress version.
Technologies: **Wordpress, MySQL, LAMP**

PERSONAL SKILLS

Understand the business requirements.
Communicate client's needs to the team.
Determine the needed tasks to be done.
Follow up on each member's progress.
Create a team from prospective candidates.
Collaborate with team on blocking issues
Basic skills in project management

TECHNICAL SKILLS

Interbranch VPN Configuration
Linux Server Administration
NAS Server Deployment
Reactive Programming
Rack Mounted Server Deployment
Cisco Networking
PFSense Network Configuration
Functional Programming
GitFlow and Semantic Versioning
Subversion

EDUCATION

ATENEO DE DAVAO UNIVERSITY
Highschool | 2004 - 2008

Acacia Street, Matina 8021 Davao City, Philippines
a4hs@addu.edu.ph, (082) 221 2411

UNIVERSITY OF THE PHILIPPINES - DILIMAN
BS PHYSICS | 2009

Quezon Hall, UP Diliman, Quezon City, Philippines 1101
(632) 981-85-00

UNIVERSITY OF SAN CARLOS - TALAMBAN
BS Computer Science | 2010 - 2014

Talamban Campus, Nasipit, Cebu City 6000, Philippines
+63 32 230 0100 local 150 or 158

MAJOR SEMINARS

NETWORKING TRAINING
CISCO Rivant IT | MARCH 2018

Studied protocols like RIP and VOIP. Implemented Subnetworking and Firewall Techniques. Deployed the technology learned to company network. Studied VPN and applied to interbranch communication.

ADVANCED PROJECT MANAGEMENT
Fiera De Manila | DECEMBER 2017

Applied soft tools to create the right mix of team members in a project. Learned how to use Project Libre advance techniques to track project costs. Used WBS to manage an ongoing project. Determined the effects of corporate decisions on a current project.

BIG DATA ANALYTICS 101 TRAINING
DMAIPH | OCTOBER 2017

Used PostgreSQL to analyze big data sets. Combined multiple data sources into one dashboard. Converted corporate data into readily readable KPIs.

FINANCIAL STATEMENT ANALYSIS
Router Philippines | MAY 2017

Learned how to create a financial statement based on a transaction table. Optimize the cost of company taxes through correct labeling of transactions. Learned techniques to optimize the chart of accounts. Applied seminar to current project.
